

The background of the entire page is a collage of several human faces. The faces are rendered in two primary color schemes: a muted green on the left side and a warm orange on the right side. The faces are of various ethnicities and ages, looking in different directions, creating a sense of global diversity. The text is overlaid on this collage in a white, serif font.

“Our goal
at the
University of Maryland
is to be a place
where excellence
is achieved
through diversity.”

“Our goal at the University of Maryland is to be a place where excellence is achieved through diversity. A place that reflects the diversity of our state and the cultural richness of our world. A place where one can challenge the ideas of another while affirming the human dignity of all. A place where diversity is not only tolerated but celebrated...”

William E. Kirwan, President
University of Maryland at College Park

President's Message to the Graduates

Congratulations on the successful completion of your studies! It has been a pleasure and a privilege to have you as a student at the University of Maryland at College Park. As you take formal leave of *your* university, my colleagues and I would like you to know how much we value the outstanding contributions today's graduates have made in so many different areas. The laurels you have won in scholarship and in artistic performance, in athletics and as young leaders, have brought added luster to this venerable institution.

On our part, we have endeavored to provide you with an ideal environment for nurturing your special interests and talents, and for developing the broad intellectual and cultural perspectives you will need to compete successfully in the professional world. We are confident that your College Park education will prove to be well worth the time and effort you invested in it, and that your experience here, both inside and outside of the classroom, will serve you well in the years to come.

We hope, too, that you will cherish the friendships you made here, and that College Park will always evoke the happiest of memories for you. Please continue to support this institution and its destiny as the flagship university of Maryland. Although you will be leaving this campus to explore new vistas and face fresh challenges, we hope that you will visit often and that you will always remain connected in spirit to your alma mater.

Good luck and Godspeed to each and every one of you!

Sincerely yours,

WE Kirwan

William E. Kirwan
President

From Alumni Programs

Congratulations on achieving the ultimate goal of your undergraduate years. On behalf of the University of Maryland Alumni Association, I would like to add our very best wishes to those you have received from your faculty and other university friends. As President Kirwan has told so many recent alumni, you'll always be a part of us, and we hope you'll keep in touch.

Your commencement ceremony today includes a special tradition. You will be officially inducted as a member of the University of Maryland Alumni Association by this year's association president, Ed Williams. Your six-month membership card and a list of benefits and services may be found on the inside back cover of the Graduation Handbook. If you no longer have your handbook, please stop by the Office of Alumni Programs located in the Rossborough Inn. We will be pleased to issue you a new membership card and provide you with more information.

Wherever your plans take you following graduation, you'll find Maryland friends and professional contacts by staying involved in alumni activities. There are more than 30 academic, regional and special interest groups—including our newest, the Young Alumni Club, which you may find to be of particular interest. And, of course, attending Maryland athletic events is always a great way to get together with fellow grads. Regardless of how you choose to stay involved, our purpose remains the same: to respond to the needs and interests of all alumni, and to support your continued interest in and loyalty to the University of Maryland at College Park.

Again, best wishes for all the challenges and triumphs that lie ahead.

Sincerely,

Joan Patterson

Joan Patterson '66
Executive Director, Alumni Programs

Today we are gathered together to recognize all those who have accomplished something great. Each and every one of us has achieved a goal that we set several years ago. Do you remember your first semester, or the first stranger you met that became a friend? Looking back, you and your classmates could probably not imagine that you would finally be leaving as a graduate of the University of Maryland at College Park.

We have each followed a unique path but have reached a common destination. As seniors, it is easier to list the ways in which we are different from each other than the ways in which we are bound together. We are accustomed to describing students in groups—commuters, residents; members of ethnic, religious, or professional organizations; students in particular departments and colleges. These differences should be admired and respected as should the many qualities we share.

From this point, you can reflect on past journeys. Remember what you learned along the way about who you are and what you are capable of achieving. Know that your time spent at the University of Maryland at College Park will help you arrive at your next destination, fully prepared to reach your highest goals in life.

Congratulations!

Schedule of Events

Following the Commencement, individual graduation exercises for colleges and schools will be held at several campus locations. Ceremonies are scheduled to begin at noon, 2:30 or 5:00 p.m. Guests are urged to be seated approximately one half-hour prior to the designated time for the ceremonies if they wish to observe the student and faculty procession.

Graduates, their families and friends, are cordially invited and encouraged to join with university officials and members of the faculty at the reception to be held outside on McKeldin Mall. The rain location for the reception will be the Grand Ballroom of the Stamp Student Union.

Shuttle bus service will provide free transportation across the campus throughout the day.

The University of Maryland at College Park

THE CAMPUS

Flagship campus of Maryland's 11-institution system of higher learning, the University of Maryland at College Park is the most comprehensive institution of higher education, research, and service in the state. The university offers 98 undergraduate majors, 87 master's programs, and 68 doctoral programs in 13 schools and colleges.

The university is one of only 30 public research universities that are members of the prestigious 58-member Association of American Universities and the only public institution in the Maryland-D.C. area with membership in the nation's most distinguished honor society, Phi Beta Kappa. It is classified as a Research-1 university by the Carnegie Foundation by virtue of the range of its baccalaureate programs, the amount of federal support received, and the number of doctoral degrees awarded each year, sharing that honor with the top research universities in the country.

Fall 1995 College Park students at a glance:

Total enrollment:	32,908
Graduate Students:	8,535
Full-time:	4,158
Part-time:	4,377
Undergraduates:	24,373
Full-time:	15,618
Part-time:	8,755
Average age:	24.6
States represented:	50
Countries represented:	130
Minorities:	32%

Among public universities in the Association of American Universities, College Park ranks among the top in the percentage of African American undergraduate students. In addition, the university has the largest number of African American and other minority faculty members among its peers.

HISTORY

The University of Maryland was founded in 1807 in Baltimore as a faculty-owned College of Medicine.

The medical school was considered one of the top schools in the country, attracting notable professors and lecturers from throughout the world. In its beginning, tuition cost \$140, grades were sent home weekly to parents, and students could obtain room and board for \$300 annually.

Five years later, the growing institution was renamed the University of Maryland. Despite the name, the university was not considered a state institution as it was still owned and operated by faculty. Baltimore College of Dental Surgery, the first dental school in America, became a part of the university in 1840, awarding the first Doctor of Dental Surgery (D.D.S.) degree in 1841.

In 1859, the Maryland Agricultural College, which would evolve into the University of Maryland at College Park, was opened under a charter secured by a group of Maryland planters in 1856. In addition to spending one hour each day hoeing or plowing on the college farm, students took a broad range of

courses in ancient and modern languages, natural sciences, English, and mathematics. After a disastrous fire on campus in 1912, the state acquired the college and rebuilt it.

In 1920, the state legislature combined the College Park institution with the professional schools in Baltimore to form an expanded University of Maryland. The entity eventually grew to include campuses in Baltimore County, the Eastern Shore, and University College, a continuing education institution.

The following decades saw the increasing growth of student population, excellence in programs and curricula, and the burgeoning of the University of Maryland at College Park into a nationally recognized research institution.

July 1, 1988, marked the dawn of a new era in higher education in the state of Maryland, as the five components of the university were merged with six other state universities and colleges to form the University of Maryland System, and College Park secured its flagship status with a mandate to become one of the pre-eminent research universities in the nation.

RESEARCH

The unique role of American research universities in advancing science and technology has kept the United States in the forefront of innovation and product development. Research dollars from federal and state agencies, corporations and foundations fuel much of the basic and applied research activity of the University of Maryland at College Park's faculty and graduate students.

The university has unique facilities, research centers and institutes that attract new research

UNIVERSITY HIGHLIGHTS

- This year's freshman class has an average SAT score of 1111 and an average high school grade-point-average of 3.25.
- ARCO's book, *Ivy League Programs at State School Prices*, rated the University Honors Program among the nine best in the nation.
- *U.S. News and World Report* rated Maryland's business and engineering programs in the top 25 among all public and private institutions.
- Last year, faculty researchers at College Park were awarded almost \$150 million in competitively funded research and development awards, an increase of 83 percent since 1988.
- No other university in the Mid-Atlantic region has more top 20 graduate programs in computer, mathematical, physical sciences, and engineering disciplines than College Park, according to a recent analysis by the National Research Council.

projects and funding, as well as provide expanded knowledge in business, science and technology. The A. James Clark School of Engineering houses the Glenn L. Martin Wind Tunnel—the most advanced aerodynamic testing facility of its kind on any university campus—and the Neutral Buoyancy Facility, which simulates weightlessness for space research, the only such facility on a university campus. Other specialized facilities include:

Computer Vision Laboratory
Bioprocess-scale up Laboratory
Laboratory for Ion Beam Research
and Application
Superconductivity Research Center
Laboratory for Plasma and Fusion Studies
Psycholinguistics Laboratory
Computer-assisted cartographic laboratories
Developmental Psychology Laboratory
Center on Aging

SERVICE

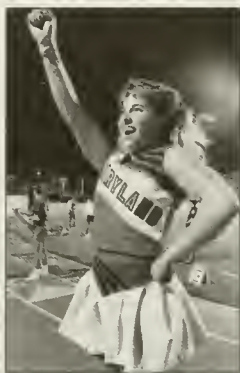

Programs of public service are central to the overall mission of the university. This philosophy is reflected in the wide array of programs and initiatives that benefit the state's business, agriculture, and education communities.

With more than 900 high technology firms in the three-county area of Montgomery, Prince George's and Frederick, the university has found abundant opportunity to extend its business and technology outreach programs to the region. Many of these programs are part of the Engineering Research Center, which operates the Technology Extension Service, the Technology Advancement Program, and Maryland Industrial Partnerships, all programs designed to provide Maryland entrepreneurs and small businesses with research facilities, technical assistance, administrative support, and access to technology that will advance their economic base.

The Institute for Systems Research has formed partnerships with major corporations, including Martin Marietta, Westinghouse, BFGoodrich, Hughes Aircraft, and Dupont to apply advanced systems research to solving industry problems in the fields of communications, manufacturing, controls and robotics.

The Center for Renaissance and Baroque Studies works in conjunction with Maryland's high schools in using theater to explore personal and social issues relevant to today's society. Team Maryland also works with area public schools by having student athletes serve as mentors to young students. Each semester student athletes act as role models to as many as 5,200 students.

The University of Maryland at College Park features a diversity of cultural and recreational activities. Four art galleries, more than 200 annual musical performances, and countless dance and theater productions, expose audiences to the broadest range of programs in the arts. And intercollegiate, club, or intramural sports provide students of all levels an opportunity to participate as spectators or athletes.

THE LIBRARIES

The seven libraries at the university constitute the largest university research library system in the Washington metropolitan area, providing vital resources to researchers, visiting scholars, and businesses throughout the region. The libraries' holdings include over 2.2 million volumes, 19,309 subscriptions to periodicals, and nearly 4.8 million items available in microfilm format. College Park libraries also offer several nationally and internationally recognized special collections such as the International Piano Archives at Maryland, the National Trust for Historical Preservation, the Katherine Anne Porter literary archive and the National Public Broadcasting Archives.

THE ALUMNI ASSOCIATION

With alumni clubs from Miami, Fla. to Taipei, Taiwan, the Alumni Association strives to keep and strengthen ties between the university and its graduates. Member events such as pre-game parties, bull roasts, picnics, golf tournaments,

dinner cruises and subscription to *College Park* magazine help keep alumni connected to the university and to each other. All graduating seniors and successful master's and Ph.D. candidates receive a six-month free membership in the association.

THE ALUMNI

Graduates of the university go on to distinguished careers in a variety of fields. Chosen from thousands of qualified alumni, an inaugural group was inducted into the University of Maryland Alumni Association Hall of Fame in April, 1995. They included 21 outstanding individuals who have brought, and continue to bring, great honor to their alma mater. Their achievements are as varied as their lives, but they all have one thing in common: a degree from the University of Maryland at College Park.

Carmen Balthrop, B.A. '71

World-class soprano and mentor to aspiring vocalists

Harry Clifton "Curley" Bird, B.S. '08

Legendary university president for 18 years

A. James Clark, B.S. '50

Construction magnate and benefactor

William P. Cole Jr., B.S. '10

Congressman and member of UM Board of Regents for 25 years

Mary Stallings Coleman, B.A. '55

First woman elected as Chief Justice, Michigan Supreme Court

Geary F. Eppley, B.S. '20, M.S. '26

Devoted career to university as dean of men and athletic director

Charles F. Fefferman, B.S. '66

Youngest winner of Field's Medal, mathematics highest award

Herbert A. Hauptman, Ph.D. '55

Co-recipient of 1985 Nobel Prize in Chemistry

Jim Henson, B.A. '60

Creator of the beloved Muppets

Steny H. Hoyer, B.S. '63

Public servant to Maryland for nearly 30 years

Carlisle Humelsine, B.A. '37

Leader of Colonial Williamsburg Foundation

Wilbur Munro Leaf, B.A. '27

Creator of "Ferdinand the Bull" story

Samuel J. LeFrak, B.S. '40

Internationally acclaimed urban planning leader

Parren Mitchell, M.A. '52

First African American student and Maryland congressman

Jane Cahill Pfeiffer, B.A. '54

First woman to head a major network; named chair of NBC in 1978

Judith A. Resnik, Ph.D. '77

Pioneering astronaut; died tragically in Challenger shuttle disaster

Chun-Shan Shen, Ph.D. '61

President of Taiwan's National Tsing-Hua University

William Woolford Skinner, B.S. 1895

Nationally prominent agricultural research chemist

Adele H. Stamp, M.A. '24

Dean of women at Maryland from 1922 to 1960

Reginald Van Trump Truitt, B.S. '14

*Leading naturalist and marine biologist;
pioneered Chesapeake Bay research*

Millard E. Tydings, B.S. '10

*Introduced legislation to create University of
Maryland in 1920*

The University of Maryland Alumni Association Hall of Fame is located in the Commuter Lounge of the Stamp Student Union. Periodically, the Alumni Association will induct other graduates in to the Hall of Fame—its highest honor.

CUSTOMS OF COMMENCEMENT

Early commencement ceremonies at the University of Maryland were marked with great fanfare and celebration. The faculty gave huge banquets for the graduates the night before the event. The following morning, crowds gathered to watch the young graduates parade. It was a gala social occasion, attracting not only friends and relatives, but the fashionable elite of the day. At the ceremony, prayers were recited, speeches were made, and honorary degrees were awarded to distinguished figures from across the country. Finally, as the audience cheered and threw flowers, the graduates came forward to collect their Latin-inscribed degrees.

Academic Costume

The black caps and gowns worn by the students and faculty in the academic procession have been the traditional costume of scholars since the Middle Ages. The ordinary dress of the scholar, whether student or teacher, was similar to that of a cleric. Caps and gowns were probably worn to keep students warm in unheated buildings. Many medieval scholars

were tonsured, like monks, and hoods served to cover their shaved heads until the skull cap later took its place.

Even after the Civil War, most students at American universities wore caps and gowns daily while in residence. These varied in design until they were standardized by the American Intercollegiate Commission in 1894. At that time it was decided that all robes would be black. Colors on the trim of the gown were also standardized to indicate the scholar's academic discipline.

A list of department colors follows:

Agriculture: Maize
Arts, Letters, Humanities: White
Business Administration,
Commercial Science: Drab
Dentistry: Lilac
Economics: Copper
Education: Light Blue
Engineering: Orange
Fine Arts, Architecture: Brown
Forestry: Russet
Home Economics: Maroon
Journalism: Crimson
Law: Purple
Library Science: Lemon
Medicine: Green
Music: Pink

Nursing: Apricot
Oratory, Speech: Silver Gray
Pharmacy: Olive
Philanthropy: Rose
Philosophy: Dark Blue
Public Administration, Foreign
Service: Peacock Blue
Public Health: Salmon
Physical Education: Sage Green
Science: Golden Yellow
Social Work: Citron
Theology and Divinity: Scarlet
Veterinary Sciences: Gray

The tassel may also be colored to represent an academic discipline or it may be black. Officially, the tassel is permitted "to lie where it will" on the mortarboard. However, numerous institutions have adopted the practice of having degree candidates wear the tassel on the right front side at the start of the commencement ceremony and then shift them to the left side after degrees are awarded.

Student Marshals

Elected through a nomination process, student marshals are senior leaders who play an important role in the graduation ceremony. Student marshals assist in organizing the thousands of graduates, leading them smoothly through the commencement procession. They also supply extra caps and hoods, and bobby pins to keep headwear secure. May 1996 marshals are listed on page 94 of this booklet.

Senior Gift

The senior gift is a university tradition dating back 84 years. The first senior gift, the iron gate entrance at the Rossborough Inn, was given by the class of 1910. As this year's gift from the graduating class, seniors have elected to donate

funds for a new fountain to be placed in the center of the future traffic circle at the West Gate entrance off Stadium Drive.

The purpose of the senior gift is twofold. Each year the senior class leaves behind a memorable legacy for new students and visitors, and provides the university with a gift that enhances the campus atmosphere.

Past senior gifts have included: the Testudo statue (Class of 1933), the lights around the "M" in the traffic circle on Campus Drive (Class of 1986), and the restoration of the Chapel chimes and clock face (Class of 1992).

ACADEMIC DEGREES

A degree is awarded for the successful completion of a course of study. There are more than 1,600 different academic degrees currently conferred by colleges and universities nationwide. The University of Maryland at College Park offers degrees in 98 undergraduate majors, 87 master's programs, and 68 doctoral programs.

The Doctor's Degree

The doctor's degree represents the most advanced earned degree conferred by American institutions. There are two distinct types: the practitioner's degree and the research degree. The first type represents advanced training for the practice of various professions, principally Doctor of Medicine, Juris Doctor, and Doctor of Pharmacy. These degrees do not involve the completion of original research by the student. The University of Maryland, at the professional school in Baltimore, awarded the first two dental degrees

in history on March 9, 1841, and invented the name of the degree, Doctor of Dental Surgery (D.D.S.).

The second type is the research doctorate representing prolonged periods of advanced study. A dissertation which usually accompanies the study is intended to contribute substantially to the body of knowledge on the subject. The most important of these, the Doctor of Philosophy, no longer has an implication of philosophy for its holder, but represents advanced research in any of the major fields of knowledge. It was first awarded in the United States in 1861 by Yale University. The University of Maryland awarded a Ph.D. for the first time in 1920.

The Master's Degree

The master's degree is an academic honor bestowed upon students who have successfully completed work beyond the baccalaureate. A thesis and an oral examination are usually required. In 1920, the University of Maryland awarded its first Master of Arts (M.A.) and Master of Science (M.S.) degrees in fields other than agriculture.

The Bachelor's Degree

The bachelor's degree represents the completion of a four-year course of college-level study and is the oldest academic degree awarded by American institutions of higher learning. It was first conferred in America in 1642 on the first nine graduates of Harvard College. Maryland Agriculture College, which later became the University of Maryland at College Park, awarded its first Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) in 1862.

Honorary Degree

Each year the University of Maryland at College Park awards honorary degrees to persons approved by a campus committee, the provost, the president, and the university's Board of Regents. Through the bestowal of these degrees, the university seeks to recognize outstanding achievement in government, business, education, science, and the arts. In recent years the committee has sought to recognize individuals in the greater Washington-Baltimore area who have made significant contributions to an improved quality of life in the region. Honorary degrees have also been awarded to graduates of College Park who have gone on to enjoy notably successful careers. Past honorary degree recipients include Isaac Asimov (1977), Eubie Blake (1978), Bill Cosby (1992), Hugh Downs (1988), Ralph Ellison (1974), Milton Eisenhower (1958), Jim Henson (1978), Hubert H. Humphrey (1965), Lyndon Baines Johnson (1963), and Andrew Wyeth (1964).

Supriya Goyal called from the University of London to say that she would be back on campus May 19th from her semester's study abroad. She spent her time there she says, "focusing on the humanities, since for the rest of my life I will be studying science". Her double degrees in philosophy and neurobiology, her 4.0 cumulative average, and a list of honors and activities that fill a two-page resume mark her as an outstanding scholar, scientist, and leader.

She is a thoughtful and enthusiastic member of the university community. "Over the past four years I have become a mature, confident, and educated individual as a result of my experiences at the University of Maryland" she says. "I have come to realize that true learning is not about the accumulation of facts, but rather about acquiring a mode of thinking that allows one to examine an issue from several different viewpoints. I think what I will remember most are the people I have had a chance to get to know—both professors and students. They have had a direct influence in shaping my life, offering me new perspectives with which to view the world."

Ms. Goyal has pursued her education in and out of the classroom with vigor and intensity, making the most of the multiple opportunities the university affords. In addition to her studies, her involvement in the University Honors Program and the Central Judicial Board, she has been contributing editor for the literary magazine, staff writer for the student newspaper, and production assistant at WMUC radio. She worked on a research project with Professor Stephen Wolniak studying the mechanics of nuclear envelope breakdown in the Spiderwort plant, and as a student programmer in the Department of Computer Science. She is a member of Phi Beta Kappa, Golden Key Honor Society, Mortarboard and Omicron Delta Kappa National Leadership Honor Society and received the Sally Sterling Byrd Citizenship Award among other honors. She credits her professors in philosophy and biology for their support, guidance and encouragement. "I don't think any other state institution can boast having such a large student body and yet such personal teaching," she says. "The university has nurtured my love for both science and the humanities and has prepared me for my future by teaching me how to think critically, analytically, and conceptually."

Goyal has been accepted to the prestigious Junior FlexMed Program at Johns Hopkins School of Medicine, where she plans to become a doctor who can integrate science and humanism into her care of patients. "I am a firm believer that healing is both a mental and a physical process," she states. But she wants to be equally involved in medical research, realizing that "discovering new knowledge is essential for the continuing progress of science."

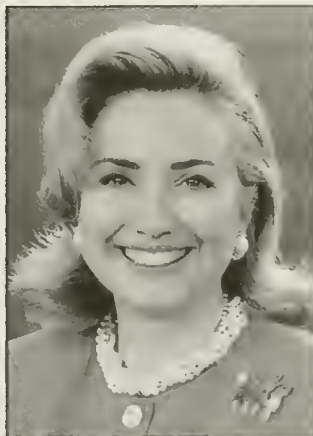

She is a woman of high ideals and impressive intellectual skills. A graduate who will continue to honor her university as she brings honors to herself.

Supriya Goyal Graduating Student Speaker

Hillary Rodham Clinton

Honorary Doctor of Public Service

In the past year, Hillary Rodham Clinton has represented the United States as First Lady at dozens of conferences, dinners, and state occasions. She has published a national best-seller, visited U.S. peacekeeping troops in the Balkans, testified before the Whitewater Commission, celebrated her daughter's sixteenth birthday, campaigned energetically for the re-election of her husband and appeared on Oprah. She is without question the most well-known woman in our country, and one of the most active.

She is also a woman who speaks clearly and eloquently on the subjects that have shaped her career as a lawyer and First Lady: children, the family, health, education equality of opportunity, and the responsibility of politics to respond to these issues. Hillary Rodham sounded a prophetic note as valedictorian at her own

Commencement from Wellesley College in 1969. "...for too long our leaders have used politics as the art of the possible...The challenge now is to practice politics as the art of making what appears to be impossible, possible."

She was born Hillary Diane Rodham in Chicago, Illinois on October 26, 1947, eldest child in a close-knit Methodist family. She was a National Merit Scholar and president of the Wellesley College Government Association, graduating with high honors. At Yale Law School, she developed her strong concern for protecting the interests of children and their families, and met Bill Clinton, a fellow student.

After graduating from Wellesley, she served as staff attorney for the Children's Defense Fund and also worked on the Watergate impeachment proceedings before "following her heart to Arkansas" where she and Bill were married in 1975. Their daughter, Chelsea, was born in 1980.

As First Lady of Arkansas for twelve years, Hillary Clinton founded the Arkansas Advocates for Children and Families, and introduced a pioneering program in home instruction for preschool youth. She was named Arkansas Woman of the Year in 1983 and Arkansas Mother of the Year in 1984.

During the first two years of her husband's presidency, Hillary Clinton embraced the enormous challenge of heading his Task Force on National Health Care Reform—a true attempt at making "what appears to be impossible, possible." That effort was part of what she considers her public responsibilities as First Lady, a role she works hard to balance with her own career and family. Her new book, "It Takes a Village," is both touching and provocative in its dedication to these ideals.

Hillary Rodham Clinton has transformed the domestic policy debate in this country with her words, but, even more, with her actions. In her role as First Lady she exemplifies the courage, conviction and concern of a true leader.

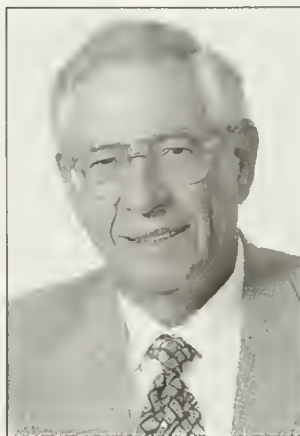

Robert Fischell's bright path across the universe of space technology, engineering innovation and biomedical inventions would put a comet to shame. This student of engineering and physics, whose 36-year career at the Johns Hopkins Applied Physics Laboratory was the launching pad for 53 U.S. patents in both aerospace and biomedical technology, is a truly remarkable scientist and inventor.

Fischell's first major invention was an implantable, programmable artificial insulin pancreas for persons with diabetes. The device controls blood sugar with only three or four insulin infusions each year, instead of the one to two injections each day required by traditional therapies. In a nine-year trial by the National Institutes of Health, the artificial pancreas has dramatically reduced complications of diabetes, including blindness and other vascular and nerve disorders.

In 1984, Fischell was honored as U. S. Inventor of the Year by the U.S. Senate. Well before that, he had been recognized in three different years by *Industrial Research* magazine for creating one of the hundred most significant inventions of the year. NASA honored him with an Exceptional Engineering award in 1980 and an Individual Achievement award in 1982. In 1987, the New York Academy of Sciences presented him with the Gold Medal for Contribution to Aerospace Science and Technology, and, in 1988, he was inducted into the Space Technology Hall of Fame.

Fischell's recent innovations include a medical device that assists in procedures like balloon angioplasty, providing better access to coronary arteries and relieving much of the post-procedure pain. He has also created a radioisotope stent—a small wire mesh cylinder that is implanted into arteries after surgery to prevent them from closing up—that promises to improve post-operative recovery for millions of patients and to replace many heart by-pass surgeries with a simple, non-surgical procedure.

This outstanding alumnus of the University of Maryland (M.S. Physics, 1953) has generously provided the means to establish the Robert Fischell Industry-University Lecture Series in the College of Computer, Mathematical and Physical Science, to further the ties between university research and the needs of society.

Robert E. Fischell Class of 1953 Honorary Doctor of Science

Yuan Tseh Lee Honorary Doctor of Science

Dr. Yuan Tseh Lee, president of Academia Sinica in Taipei and Nobel laureate, has led a distinguished career in research and science education during more than thirty years in the United States.

A native of Hsinchu, Taiwan, Dr. Lee received his education at National Taiwan University and National Tsinghua University, before coming to this country to study at the University of California–Berkeley. After earning his doctorate, Lee spent six years at the University of Chicago's James Franck Institute before returning to Berkeley as a full professor of chemistry in 1974.

A member of the American Academy of Arts and Sciences, Lee shared the Nobel Prize for Chemistry in 1986 with colleague Dudley R.

Herschbach and Canadian John C. Polanyi for work in the dynamics of elementary chemical reactions.

Lee's current research in molecular structure and dynamics uses crossed molecular beams and advanced laser technology to explore molecular reactions involved in combustion chemistry and atmospheric chemistry. He also investigates the dynamics of intramolecular energy transfer in chemically reactive systems.

Dr. Lee recently returned to his native Taiwan to become president of Academia Sinica, the most prestigious research organization in that country. He has initiated several important projects in science education and has been a key leader in Taiwan's major education reform.

The Academia Sinica shares close ties with the University of Maryland at College Park in many important areas of research, from statistics to physics, archaeology and languages. A new Institute of Astrophysics will join the Berkeley-Illinois-Maryland Array projects in millimeter wave astronomy, reinforcing an international circle of influence for Dr. Lee and the University of Maryland.

In addition to his outstanding contributions to scientific research and discovery, Dr. Lee is known by colleagues as a man with a deep sense of social responsibility and international concerns. He has been active in promoting international scientific exchanges and cooperation between Taiwan and mainland China.

Joe Gildenhorn took his University of Maryland degree in Business Administration ('51) to Yale Law School ('54), and has been mixing law and business to his advantage ever since. A lifetime of successful practice, civic responsibility and service to his country places former Ambassador Gildenhorn in the most distinguished ranks of College Park alumni.

His career typifies a man with close ties to his family and community. With high school friends, Gildenhorn helped found a law practice in Washington, D.C., in 1959, specializing in corporate law and real estate. In the late '60s, he and his law partners formed a real estate firm, The JBG Companies, which has developed and managed many of the most important office buildings and hotels in the nation's capital. JBG has grown to offer comprehensive real estate development, property management, consulting and investment services. Their management portfolio encompasses more than 8 million square feet of commercial property as well as 3,000 residential apartments.

JBG developments have included the Four Seasons Hotel in Georgetown and the Holiday Inn in Old Town Alexandria. Recently the firm purchased an office building in the well known Watergate complex.

Gildenhorn serves as chair of the Franklin National Bank in Washington, D.C., and is on the board of several public corporations, including the Mills Corp. and Biscayne Apparel, Inc. He has recently been appointed vice-chair of the D. C. Sports Commission.

Staying close to his roots in the greater Washington area, Gildenhorn has been active in civic and charitable organizations in the Jewish community for many years. He has held leadership positions with the Hebrew Home of Greater Washington, the United Jewish Appeal Federation of Greater Washington, and is currently a trustee of the United Jewish Endowment Fund. Gildenhorn's contributions have been recognized with the David Ben Gurion Award from the State of Israel, the Humanitarian Award from B'nai B'rith, and the Leadership Award from the Jewish Institute of National Security Affairs, among others.

In 1989, President George Bush named Gildenhorn to the post of Ambassador to Switzerland, where he served for four years during some of the major historical events of our century, including the dissolution of the Soviet Union and our country's successful role in the Gulf war. He and his wife, Alma, a 1953 graduate of the College of Education, live in Washington, D.C., and are actively involved in the business, cultural and civic life of the area.

Joseph B. Gildenhorn Class of 1951 1966 President's Distinguished Alumnus Award

Scholarship Honors

Bachelor's degree candidates who have qualified for scholarship honors upon graduation are designated by appropriate symbols adjacent to their names within the alphabetical listings of colleges or schools.

To be eligible for consideration for such honors a candidate must meet the following general criteria: (1) at least 60 semester credits must be earned at or transferred with a grade to the University of Maryland at College Park; (2) no more than 6 credits taken satisfactory/fail or pass/fail shall be counted toward the 60-hour minimum; and (3) no student with an average less than 3.3 will be considered for a commencement honor.

Degree candidates who have met these criteria are shown in the listings as qualifying, upon graduation, for the designators *Summa cum Laude* (if they ranked in the top 2 percent of the candidates in their respective colleges or schools), *Magna cum Laude* (if in the next 3 percent), or *cum Laude* (if in the next 5 percent) based on the grade point averages of students in the preceding three graduating classes of their degree-granting unit.

Academic and Special Awards

- Milton Abramowitz Memorial Prize in Mathematics—**Theresa Chow**
- Academic Achievement in Theatre Award—**Lily Hung, Emily Tarvin**
- Adams Group Award *to the outstanding Journalism senior in advertising*—**Konstantinos "Dean" White**
- Administering Council for Theatre Award (Dept. of Theatre)—**Sarah Bragin, Demond Fernandez, Annica Graham, Benjamin Hill, Heather Joireman, Gretchen McNutt, Jerry Richardson, Melissa Rowell, Jacqueline Stone, Justin Via, Jonathan Willen, Devron Young**
- Advertising Sequence Award *to the outstanding journalism senior in advertising*—**Kristine Konn (December 1995)**
- Agriculture and Natural Resources Alumni Chapter Award *to seniors whose leadership and service have contributed most towards the advancement of the College of Agriculture and Natural Resources*—**Rebecca J. Soule**
- AICP Award for highest GPA—**Eugenia Dan**
- Alpha Rho Chi Medal *to a graduating student of architecture who has made a distinctive contribution to school, life, embodying the ideals of professional service and leadership*—**Desiree Marie S. Escario**
- Alpha Zeta Freshman Award *to a full-time student in the College of Agriculture and Natural Resources in recognition of scholastic excellence during his or her freshman year*—**Jamie Rachel Orodenker**
- American Association of University Women, College Park Branch Awards—**Elizabeth Seldomridge (Ph.D. Award), Shalini Jayasundera (M.S. Award)**
- American Institute of Architects AIA Certificate *to a graduating student of architecture for academic achievement*—**Kelly Andrew Nelson**
- American Institute of Architects AIA Medal *to a graduating student of architecture for outstanding overall academic achievement*—**Allen Thomas Beall**
- American Institute of Chemical Engineers' Student Chapter Award—**Sonja A. Sharpe**
- American Institute of Chemists Foundation Student Award—**Kavita D. Butani**
- American Legion Outstanding Senior Award *presented to the cadet with ROTC grades in the top 25% of the class who demonstrated outstanding leadership, discipline, and citizenship*—**Trent Austin Greenwell**

- American Legion ROTC General Military Excellence Award *presented to cadets in the upper 25% of their Air Science class who have demonstrated outstanding qualities in military leadership, discipline and character*—**Charles Stephen Laing**
- American Legion ROTC Scholastic Excellence Award *presented to outstanding cadets in the upper 10% of their university class, in the upper 25% of their ROTC class, who demonstrate high qualities in military leadership, and who actively participate in student organizations or sports*—**Michael Robert Rich**
- American Nuclear Society Outstanding Senior Award—**J. Houston Penny**
- American Nuclear Society Student Chapter Award—Leadership and Service—**Jodi L. Schoutese-Furr (1996), Stephanie J. Herlth (1995)**
- American Society of Civil Engineers Outstanding Senior Award—**Matthew Joyce, Hae-Lem Pak**
- American Society of Mechanical Engineer's Senior Award—**Beverly T. Roberts**
- Andersen Consulting DIS Leadership Scholarship—**Allison L. Palmer**
- James R. Anderson Award (*Dept. of Geography*)—**Tyrone C. Ligon, Robert A. Sohlberg, Michael L. Timpke**
- School of Architecture Alumni Chapter Award (Masters)—**Cecily Jennifer Feick**
- School of Architecture Alumni Chapter Award (Senior)—**Tung Thanh Nguyen**
- School of Architecture Alumni Scholarship Award—**Antonio Roberto Oliveira Rebelo**
- School of Architecture Dean's Thesis Award Fall 1995—**Su Chen**
- School of Architecture Faculty Award for Citizenship—**Hilary Beth Jameson**
- School of Architecture Faculty Award for Excellence in Design (Masters)—**Desiree Marie S. Escario**
- School of Architecture Faculty Award for Excellence in Design (Senior)—**Carla J. Cole**
- School of Architecture Faculty Award *for Academic Excellence at the Baccalaureate Level*—**Antonio Roberto Oliveira Rebelo**
- School of Architecture Faculty Award *for Academic Achievement at the Baccalaureate Level*—**Brett Owen Lundmark**
- Association of Collegiate Schools of Architecture/ American Wood Council, Carl E. Darrow International Student Design Competition Award—**First Prize: Joanne Marjorie Qualey—Third Prize: Allen Thomas Beall, Desiree Marie S. Escario, Stacie Kay Hahn**
- Award for Best Environmental Paper—**Theresa Fiscus-Moriarty, Stephanie Von Feck**
- O.E. Baker Award *to an Outstanding Geography Graduate Student. This award was named after the founder (1942) and first chair of the Department of Geography at the University of Maryland, and a world renowned agricultural geography and population expert*—**Freya M. Margand**
- Baltimore County Volunteer Firemen's Association Scholarship Award—**Scott Golly**
- Baltimore Sun Journalism Scholarship *for Minority Students (College of Journalism)*—**Dana Hedgpeth**
- Bechtel Award—**Michael Blattau**
- Paul Berg Scholarship (*College of Journalism*)—**Robert Runett**
- David Arthur Berman Memorial Award *presented to a student majoring in Chemical Engineering with the highest cumulative scholastic average at the end of the first semester of the junior year and who has been elected to Tau Beta Pi*—**Elaine M. Gannon**
- Mary McLeod Bethune Citizenship Award *presented to the black junior or senior student who has displayed outstanding involvement and leadership in campus activities and who has contributed most to the advancement of black student concerns at the University of Maryland at College Park*—**Ziedah Tyrie Ferguson**

Student Marshals

The Senior Marshal Program, which began in 1991, is an opportunity for the campus community to acknowledge outstanding seniors at their commencement. The students selected to be marshals were nominated by faculty, administrators and staff for their outstanding accomplishments and contributions to the University of Maryland at College Park. We are proud to recognize these truly remarkable students.
